AMENDMENT; RESPONSE TO OFFICE ACTION OF JUNE 20, 2002

Assistant Commissioner for Patents
Washington, D.C. 20231

September 3, 2002

Dear Sir:

This paper is submitted in response to the above named Office Action to further highlight why the application is in condition for allowance.

AMENDMENT

Please amend the case as follows:

In the Specification

Please amend the last paragraph on page 11 to read as follows:

Coverage measurement module 334 processes a pattern profile 322 using a set of coverage parameters 324 to produce a set of analysis results 318. Coverage measurement module [324]334 preferably determines a coverage measurement according to the extended DVG method described above, although other coverage measurements may be used. The coverage parameters 324 may specify the criteria being used to determine coverage, including categorization rules and desired levels of coverage when the extended DVG method is used. The measurement results 318 may be processed by the profile generation module 330 to determine profiles of new test patterns or modified test patterns designed to improve the measured coverage.

In the Abstract

Please amend the abstract to read as provided on the following page:
